PROFESSIONAL SUMMARY

Data Science and AI undergraduate at NTU with internship experience building automation systems for an e-commerce business, from n8n pipelines to a self-hosted AI agent. Comfortable working across Python, SQL and machine learning, and have picked up several hackathon wins along the way tackling churn prediction and route optimisation problems.

SKILLS

SQL	n8n	System Design
Pandas	Docker	Claude Tools
PyTorch	Databricks	Microsoft Suite

EXPERIENCE

AI and Automation Specialist LaLaGreen, Internship · Singapore (Hybrid) - Built n8n automation pipelines integrating the Amazon SP-API and Ads API. - Developed Hermes, an AI agent solving real operational problems for the business. - Set up and managed a Docker-based VPS to deploy internal tools team-wide. - Pitched automation ideas to non-technical, non-English-speaking stakeholders to drive adoption.	May 2026 – Aug 2026
Tuition Teacher Mindflex Tuition Academy Designed lesson plans tailored to individual students' weaker topics.	Jan 2025 – Jul 2025
Platoon Sergeant Singapore Armed Forces - Led a 20-person platoon operating drones and surveillance systems. - Built a Telegram bot (Python, Google Sheets) to centralise unit inventory tracking, cutting manual errors.	Jan 2023 – Nov 2024

EDUCATION

Bachelor's in Data Science and AI Nanyang Technological University · Expected Apr 2029 GPA: 4.4
Cambridge A Levels Jurong Pioneer Junior College · Nov 2022
Cambridge O Levels Hua Yi Secondary School · Nov 2019

CERTIFICATIONS

Databricks AI/BI for Data Analyst Databricks · Jan 2026
Machine Learning Specialization DeepLearning.AI · May 2025
Python for Data Science and AI IBM · May 2025
Microsoft Excel Specialization Microsoft · May 2025

AWARDS

- NUS Maritime Hackathon — Certificate of Merit
- BrainHack Code EXP 2026 — Finalist
- EAGLES Award 2020
